EMBRACE YOUR INNER DUCK

A FANCIFUL SERIES OF WINES INVITING YOU TO UNRAVEL AND RELISH THE EXTRAORDINARY.

Dive into the whimsical journey of UGLY DUCK wines, where each blend creates a tale of transformation and delightful surprises.

Our quirky paper bottle, much like the ugly duckling's unremarkable start, conceals an unexpected treasure within.

RED BLEND CABERNET SAUVIGNON & MERLOT

A magical fusion of Cabernet Sauvignon and Merlot grapes. A deep, ruby hue introduces you to a nose filled with the initial subtlety of dark berries and a hint of spice. As the wine dances on your palate, the flavours transform into a beautiful narrative of black cherries, plums, and velvety tannins. The finish is a build-up of rich, dark chocolate and a touch of oak.

Enjoy this wine with a juicy steak hot off the grill.

WHITE BLEND PINOT GRIGIO & CHARDONNAY

A harmonious union of Pinot Grigio and Chardonnay grapes. A pale, glistening sip releases delicate notes of green apple and citrus and blossoms into a rich tapestry of tropical fruits, toasted almonds, with a touch of vanilla.

Our White Blend captivates with a finish that is crisp, refreshing, and utterly delightful.

Pairs beautifully with smoked salmon, aged cheese and light meat.

ECO FRIENDLY

The Paper Bottle's carbon footprint is up to 84% lower than glass and uses 77% less plastic than a recycled plastic bottle.

NO MORE BREAKAGE

Paper Bottles are shatterproof, cutting down on losses from breakage, and allowing the bottle to go anywhere glass cannot.

EFFICIENT SHIPPING

The Paper Bottle is 5 times lighter than glass, allowing for increased heights and quantities on a pallet, fitting more on a truck.

LESS PACKAGING

No dividers are needed, and smaller boxes means less packaging, lowering your carbon footprint, and your overall costs.

RECYCLABLE

Paper Bottles are made of 100% recycled paperboard and are easily recycled in your paper bin when pulled apart.

PROTECTS AGAINST UV

The Paper Bottle provides an effective barrier against UV light, helping to preserve the products quality.
